# Introducing:
FormUSign

Vyne Medical®'s innovative suite of products is an industry leader by automating and transforming hospital and health system processes. FormUSign allows you to gain access to a broader range of essential tools that not only drive operational efficiency but simplify tasks, making processes smoother and more manageable.

Facilitate quicker patient care with Vyne Medical's automated electronic forms

Hospital staff can spend less time completing and indexing various forms and more time delivering personalized, compassionate care with FormUSign. This solution not only helps to improve the accuracy of patient information but also helps to accelerate hospital and health system admission and discharge processes.

FormUSign from Vyne Medical empowers users by:

- Scanning documents to identify and automatically populate chosen form fields

- Fully supporting both mouse capture and digital certificate signatures

- Offering the option to choose fields for pre-population

- Saving both unfinished templates and forms to revisit later

Upload   **Create**   **Complete**   **Enter**

Upload
any form that requires frequent filling

Create
a template, identify and automatically populate fields

Complete
the reusable form electronically and if applicable, include a digital signature

Enter
forms automatically into Tracker, ready for what's next in your organizations workflow

With FormUSign, you gain the ability to:

- Define, move, relabel, and change fields

- Create templates, edit, and publish forms with Trace administrator credentials

- Separate forms by category for efficient organization

- Generate customized documents and items within the Trace® platform, no additional sign-on required

- Report who created, deleted, or used forms for enhanced transparency

- Empower teams to quickly complete forms without having to repeat the same process

- Automatically index data from the completed form to the patient's record

- Create a template to be shared among multiple individuals

Advantages of FormUSign:

- Saves time for patients and hospital staff

- Helps reduce errors

- Minimizes screen switching

- Customizes forms

We Serve
800+
Hospitals &
Health Systems
