# Revolutionize Your Healthcare Operations with Cloud Fax

Replacing outdated on-premise fax servers and fax machines to send and receive referrals, authorizations and other records?

Vyne Medical's cloud faxing adds healthcare-specific functionality and reliability to the process. Improving the delivery of incoming and outgoing faxes, Refyne Cloud Fax streamlines the associated workflows throughout your enterprise.

Our powerful cloud faxing solution works as a standalone or integrates with your existing technology to facilitate seamless bi-directional electronic faxing, reducing printing and scanning while empowering teams to efficiently manage large volumes of sensitive and urgent communications.

WE SERVE 700+ hospitals and health systems nationwide

Reduce **Streamline** **Customize** **Expedite**

Reduce
fax infrastructure and hardware maintenance using cloud based technology

Streamline
communication by supporting Multifunctional Printers (MFPs) and enabling seamless email to fax (bi-directionally) along with third party and custom integrations

Customize
both clinical and non-clinical workflows while reducing paper, empowering your entire enterprise

Expedite
the delivery of your faxes and reduce manual efforts with Vyne Medical's fax automation and integrations, providing various options to fit your organization's needs

THE ADVANTAGES OF REFYNE CLOUD FAX

Access the System Remotely
Whether in-office or remote, Refyne Cloud Fax makes it easy for teams to manage incoming/outgoing faxes

Versatile Functionality
Use as a single-department or enterprise-wide solution with options to fit your organization's needs

Healthcare-Centric Solution
Seamless EMR and document management integrations improve departmental performances

Encrypted Exchange Network
Instant fax delivery with close to 7 million endpoints. If a fax number is on our network, it means a successful digital transmission

Real-Time Network
Due to time sensitivity in healthcare, faxes do not queue up and instead, start sending within 30 seconds

Outbound Faxing for the EMR
Can serve as the fax engine for the EMR with the cloud-based electronic transmission of a multitude of outbound documents

Cloud Fax vs.
The average fax engine
